Editorial

Who is that boy who scored 100 out of 100 in Sanskrit in SSC?

It is none other than our Om Babar. Yes the one who came to Cochlea 12 years ago. There are many more success stories which you will read in this issue. Prathmesh Sawant and Arpita Varade have completed their HSC in flying colours. The small kids who were integrated to normal schools after preschool in Swaranaad are showing their metal by bagging medals.

In the last 22 years about 150 children have been integrated into schools for normal children and we are proud to say that 10% have achieved marks above 80 % and 70 % have achieved marks above 60 %. The remaining 20 % have passed. That shows that the result is 100%.

To achieve this success there are tremendous efforts taken by the parents, teachers and the child right from its childhood. There are average students even in a normal school. But when a hearing impaired child stands among the toppers with other normal children it is some thing to be appreciated. We have to boost their confidence and help them take which ever field they like.

Last year volunteers from Credit Suisse have been coming to Swaranaad for activities for children like raincoat colouring, making rakhees, making ganapati idols, lanterns and greetings before Diwali etc. But this year because of lockdown the schools have been closed.

The teachers are taking the therapies online and they do it so well that a parent has given a write up about the same in this issue.

Let us hope we get rid of this Covid and the children are back in school with their friends and teachers.

Mrs. Manasee Date

कर्णबधिर मुलांची यशस्वी वाटचाल

नमस्कार,

जुलैच्या अंकात मी आपल्याला कॉक्लिआतील ऑनलाइन शिक्षणाच्या बाबतची माहिती दिली त्यातून पुढील क्रमशः घटनाक्रम मी तुम्हांला सांगणार आहे. परंतु मला तुम्हाला अतिशय आनंदाची बातमी द्यायची आहे. आपणा सर्वांना माहितीच आहे. मागील आठवड्यातून १० वी, १२ वीचे निकाल लागले. प्रत्येक विद्यार्थ्यांच्या आयुष्यात १० वी व १२ वी हा खूपच महत्त्वाचा टप्पा असतो. त्यावरून त्याचे पुढील शिक्षण ठरत असते.

यावर्षी कॉक्लिआमध्ये वाचा व भाषा प्रशिक्षण घेतलेले १२ वी चे २ व १० वी चे ६ विद्यार्थ्यांनी परिक्षा दिली होती हे सगळे विद्यार्थी उत्तमरितीने १० वी व १२ वी उत्तीर्ण झाले. कॉक्लिआला ह्या सर्व विद्यार्थ्यांचा खूप अभिमान आहे. त्यांनी शैक्षणिक उज्ज्वल यश प्राप्त तर केलेच तर ही बालके उत्तमरित्या बोलतातही पण सगळे विद्यार्थी माझ्याशी फोन वर खूप आनंदाने बोलले. मला आठवले २००६ ते २०१० ह्या कालावाधीतील ते सर्व विद्यार्थी होते.

कॉक्लिआमध्ये मिळालेल्या वाचा भाषा प्रशिक्षणामुळे त्यांचा जो पाया (प्रार्थमिक शिक्षण) भक्कम झाला होता. त्याचे हे यश आहे असा आशय ह्या सगळ्या विद्यार्थ्यांच्या पालकांशी बोलतांना जाणवला ह्या यशामध्ये ते ज्या शाळेत शिकत होते त्या शाळेतील त्यांचे शिक्षक, मुख्याध्यापक व त्यांचे पालक यांचा मोठा वाटा आहे. त्या सर्व बालकांनी वयाच्या ३ व्या वर्षापासून कॉक्लिआत वाचा भाषा प्रशिक्षण घेतले होते. त्यामुळे शाळेत दाखल होण्याअगोदरच्या वाचा भाषा विकास व शाळापूर्व शिक्षणाचा पाया तयार असल्याने त्यांना शाळेत समावेशित होणे थोडे सोपे गेले. कर्णबधिर बालकेही सर्वसामान्य (बोलक्या) मुलांच्या शाळेत शिक्षण घेऊन उत्तम यश मिळवू शकतात याचे उदाहरण ह्या सर्व विद्यार्थ्यांनी घालून दिले.

ह्यामध्ये ओम बाबरने दहावीत ९३.८०% गुण मिळवले. संस्कृतमध्ये त्याला १०० पैकी १०० मार्क मिळाले. गणितात १०० पैकी ९८ मार्क मिळाले, मराठीत ८६ मार्क पडले. खरंतर भाषा हा विषय कर्णबधिर बालकांना कठीण जातो. त्यात सर्वसामान्य शाळेतील भाषा हा विषय कोणतीही सवलत न घेता इतके गुण मिळाले. खरंच खूपच अभिमानास्पद आहे.

बाकी सगळ्या विद्यार्थ्यांनीही खूप छान गुण मिळवले. त्यांचा सगळा तक्ता माझ्या लेखाच्या खाली येणार आहे. ह्या सगळ्या प्रवासात आमच्या प्रमाणेच त्यांनी ज्या शाळेत शिक्षण घेतलं त्यांचा व आईवडिलांचा खूप मोठा वाटा आहे. हे इथे परत एकदा नमूद करते. कर्णबधिर बालकांचा सर्वांगीण विकास व्हावा ह्या दृष्टीने कॉक्लिआ

नेहमीच प्रयत्न करत असते. ० ते ६ वर्षे हा खूप महत्वाचा काळ आहे. ह्या वयात होणारे संस्कार हे खूप महत्वाचे असतात. त्यातून बालकाच्या पुढील आयुष्याची पायाभरणी होत असते. हे काम कॉव्लिआ गेली २२ वर्षे सातत्याने पार पाडत आहे. त्याचे फळही आता दिसू लागले आहे.

हा आनंद घेतांना मला आपणा सर्व हितचिंतकांचे व मदत करणाऱ्या सगळ्यांचे खूप खूप आभार मानायचे आहेत. आपणा सर्वांशिवाय हे काम पुढे जाणे शक्य नाही. आपणा सर्वांच्या मदतीने हा रथ आम्ही पुढे नेत आहोत. धन्यवाद.

अभिनंदन !!!

Congratulations !!!

ऑनलाईन थेरपी आणि कर्णबधिर मुले

कोरोनाचा फैलाव वाढत चालला. मार्च महिन्यापासूनच शाळेला सुट्टी दिली. अभ्यास थांबला. घरी अभ्यास चालू होता. पण शिक्षकांचे आणि मुलांचे कनेक्शन थांबले. एक महिना झाला लॉकडाऊनची सुरुवात झाली. मे महिना आला. वरदच्या ताईने वरद पुढच्या वर्गात गेल्याची बातमी दिली. आनंद झाला, त्याबरोबरच चिंता वाढू लागली की, वरदला शिकवायचं कसं, नंतर बालवर्गातील कविता ताईचा मेसेज आला की, ऑनलाईन थेरपी सुरू करणार, वार आणि वेळ सांगितली. पुन्हा प्रश्न उभे राहिले ऑनलाईन थेरपीला वरद बसेल का? तो कसा प्रतिसाद देईल? नवीन शिक्षिकेला बघून तो रडेल का? पहिली थेरपी ताईनी घेतली ती एक ॲक्टिविटी लिंबू सरबत बनवण्याची, वरदला कुकिंग आवडत असल्याने त्याने छान प्रतिसाद दिला. दुसऱ्या आठवड्यातील थेरपीलाही त्याने छान प्रतिसाद दिला, असे प्रत्येक आठवड्यात तीन थेरपी होऊ लागल्या. वरद सगळ्या शिक्षिकांबरोबर व्यवस्थित बोलत होता.

थेरपीच्या आदल्यादिवशी त्याला सांगून ठेवलं की दुसऱ्या दिवशी ते सकाळपासून मोबाईलकडे बोट दाखवून म्हणायचा, 'नमस्ते ताई.' ऑनलाईन व्हिडिओ कॉलला कशी उत्तरे द्यायची ती त्याला कळली. प्रश्न समजायला लागले. एकाग्रता वाढली, ऐकण्याची क्षमता वाढली. व्हिडिओ काढून अभ्यास पाठवायचा म्हटल्यावर अभ्यासही चांगला करू लागला, या झाल्या चांगल्या गोष्टी. याचबरोबर वाईट गोष्टीही लागल्या. मोबाईल पूर्ण बंद होता. त्यामुळे मोबाईलची सवय लागली. शाळेत असताना मुलांचं इंटरॅक्शन कमी झालं. वर्गात तो काही मुलांना बघत असे त्यांच्याप्रमाणे उत्तर देण्याचा प्रयत्न करत असे. मुलांबरोबरची मस्ती, खेळणं कमी झालं. चढाओढ कमी झाली. मित्र म्हणून खांद्यावर हात टाकून गप्पा मारणं बंद झालं. मित्र आता फोटो बघून ओळखायचं इंटरनेट बरोबर नसेल, आवाज कमी जास्त होत असेल तर वरदचं लक्ष विचलित होते. मग पूर्ण थेरपी अशीच निघून जाते. याचवेळी शिक्षिकांचे कौतुक करावे तेवढे थोडेच. त्यांच्या सहनशीलतेला खरचं प्रणाम. त्या खूप वरदला प्रश्न विचारतात. वरदचा प्रतिसाद येईपर्यंत शिकवत राहतात. जोपर्यंत त्यांचा शिकवण्याचा उद्देश साध्य होत नाही तोपर्यंत त्या शिकवतात. त्यांच्या चेहऱ्यावर रागावण्याचा एकही भाव नसतो.

Success Stories of SSC and HSC students In the year 2020

Om Prakash Babar came to our NGO, Cochlea Pune for Hearing and Speech at the age of 3 years. Main reason was his Profound Deafness. Cochlea Pune is an NGO working mainly for Hearing Impaired Divyang Children under the age group of 0 to 6. Om Babar was admitted as a student in Chinchwad Center of Cochlea

Success Story 1

Pune. In this Center he has been treated by giving a Hearing aid. But just by giving Hearing aid the child is not able to speak. Mrs. Raksha Deshpande along with Om's mother Mrs. Sonika Babar has given Speech Therapy almost for two years. Later on he has been trained in Pre School Swaranaad, the only preschool for Hearing impaired children, which is giving education to deaf children so that they can be integrated in a school for normal children. Om took this training in Swaranaad. Later on he went to normal school Samarth Madhyamik Vidyalay at Chinchwad from 1st Standard. And now a proud moment for us as Om Babar has scored 93.6% marks in SSC with 100% in Sanskrit and 98% in Mathematics.

NOTHING IS IMPOSSIBLE,

WHERE THERE IS WILL THERE IS A WAY.

NEVER EVER GIVE UP IS THE WAY OF OUR LIFE.

Here, we the team of Cochlea congratulate Om for this achievement and his journey so far. We wish him ALL THE BEST for his future career

Success Story 2

Name: Arpita Vijay Varade

Age: 19 years

Birth date: 20th February 2001

Class: 12th

Marks: 72.46%

Address: Saundarya Colony, Nakhate Vasti, Rahatani

Arpita is a 19 years old and lives with her father, mother and younger brother at Rahatani, Pune. Her father has passed 12th + ITI, and is now working in a company on a temporary basis and her mother is 10th pass and works as a housewife. Her younger brother is studying in 2nd standard. Arpita is the only member of her family who is having hearing loss.

When Arpita was 6 months old her parents aware of her hearing problem because she was not responding to any sound. After the BERA test, they came to know that Arpita is having 90 percent hearing loss in the left ear and 100 percent hearing loss in the right ear. Doctor suggested them to go for an operation, but due to poor economic condition, they could not go for it. Then her parents went to Dr. Wachasundar and he suggested them that Arpita should use the Pocket Model and start speech therapy. Accordingly Arpita started speech therapy at Cochlea, Shivajinagar. For the aim of improving Arpita's speech, her mother also took the Parents Training Program at Cochlea. Because of speech therapy, Arpita learned to identify various pictures, sounds, drawings, alphabets, small words, sentences, etc.

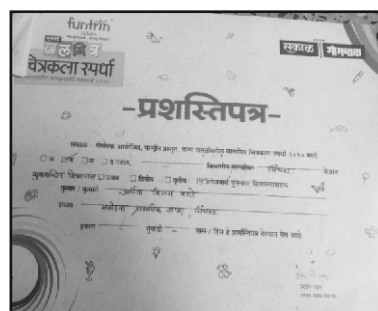

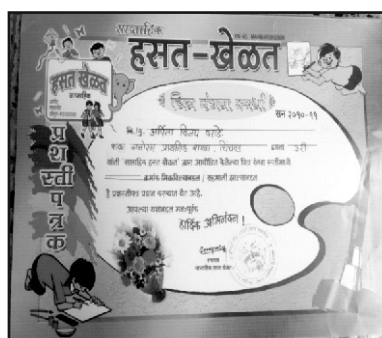

After 4 years of speech therapy and preschool, Arpita was integrated into the normal school at Manoram Prathmik Shiksha, Chinchwad. Her parents did not stop her speech therapy sessions and she continued the sessions with Mrs. Raksha Deshpande. According to her father "Speech therapy sessions played a significant role when she was integrated into the normal school. Because whatever she was taught in the school was not easy to grasp. Her speech therapy helped her to revise." As her mother had done the Parent Training Program, it was also helpful for Arpita's educational development at the primary school level. Because through the course her mother came to know, how to build a vocabulary of children from day to day routine. Arpita has also shown her interest in extracurricular activities. Arpita

received certificates in drawing and handwriting competitions including "hasatkhelat ...Chitrarangva", "BalmitraChitrkala Competition by Sakal". She participated in a state-level competition for handwriting organized by *HasatKhelatWeekly*. All these extracurricular activities played a significant role to boost the confidence level of Arpita.

Arpita and her parents decided to pursue higher education in commerce and she took admission in Marathwada Mitra Mandal College, Kalewadi for commerce. After she shifted from school to collage her hard work, confidence and sincerity remained the same. She recently passed the HSC exam with 72.46 percent. She achieved this milestone only because of her hard work, continuous support from her family and guidance from teachers. Now Arpita wants to take admission in Modern college for further studies and achieve her dream of doing a job in the banking sector.

Arpita has completed MS-CIT course and she had also planned to complete tally and typing in this vacations but due to COVID-19 pandemic she could not complete these courses.

Success Story 3

Name: Prathmesh Jitendra Savant.

Age: 17 years

Birth date: 12 October 2002

Class: 12th

Marks: 56%

Address: Kalewadi, Pimpri, Pune.

Native place: Satara, Maharashtra.

Prathmesh is living in a nuclear family in Kalewadi, Pune with his Mother, Father and elder sister. The family is basically from Satara, shifted to Pune for earning purpose. His family settled in Pune due to his father's job. His mother is educated till SSC and father completed his HSC. His sister recently completed graduation and is doing a job. Prathmesh is the only one who is having hearing impairment in his family.

When Prathmesh was two and a half years old his parent got to know that he is hearing impaired. He didn't showed development as per the normal life cycle in speaking. So they went to the Dr. Mandke. After the BERA test doctor told that Prathmesh is having almost 100 percent hearing loss in both the ears. They took therapy sessions and treatments but there was no improvement in his hearing system nor speech.

After having dialogue with Mrs. Raksha Deshpande his father decided to take hearing treatment from Cochlea. In 2005 he started taking therapy sessions from Cochlea. In the initial days, therapist used vibrations, pictures, voices, different sounds, drawing, alphabets, small words, and then sentences to make him speak. This one to one therapy sessions and parents meeting they attended in Morya Hospital, Chinchvad. Parents meeting was helpful for his child development. In the initial days he used pocket model for hearing. Then it was replaced by BT machine. While using this machine he was only understanding loud sound and missing the lower voice. Till 2009 he took therapy sessions in Swaranaad. Then his mother joined Parents Training program in Cochlea. Then she joined as an assistant teacher in Swaranaad School. She observed all the students and learned the way to deal with different type of children. She is using various techniques to solve the problem of children. The Course she took was helpful for her also to educate Prathmesh. His father took a lot of efforts for his voice. He left his job and attended all the therapy sessions with him. In 2011, Dr. Wachasunder suggested

Cochlear Implant operation. He was 9 years old when his operation was done by Dr. Wachasunder. The improvement in hearing system was very good.

He took admission in Manoram Prathmik Shiksha, Chinchvad- Pune for KG class. All the teachers and children supported him. Awareness about the machine was maintained into the class by teacher. Going to 1st and 2nd, he had shown good progress. Teacher used to put a bright student next to him so he would help him a little. He blended well into all of them. His best achievement was an award of best student in school.

There upon he went to higher secondary education from science Stream of Marathwada Mitra Mandal College, kalewadi and his friends changed but he was calm so everyone was fine with him. Sometimes the rest of the students would take help from him, he was always present in class. With this brightness he got 54% in HSC exam.

Along with the education he completed his MSCIT course and has an interest in technical things. The interest was developed because of his father as he was working in Telco Company.

Now Prathmesh is preparing for exam and thinking of pursuing BSc in Computer Science.

Narrative by Prathmesh:

I am thankful to cochlea for all the support they have given to me. I have had hard time listening since I was little. Hearing improvement into me was seen after number of therapy sessions and efforts from my parents and teachers. I am glad that my father got to know about cochlea and they took decision of taking treatment from them. Today I completed my Higher Secondary Schooling with good marks which can be credited to my family and Cochlea.

Best Student Award

Participation in Extra Curricular activities

Academic Achievement of Students in SSC and HSC Exam

Cochlea Pune is a registered charitable trust, is working in the field of Rehabilitation of Hearing Impaired members of our society. Cochlea Pune especially focuses on young, congenitally born deaf children in the age group of 0 to 6 years.

Every year children with hearing impairment admitted to our Swaranaad preschool. When child came to Swaranaad, we treated through providing hearing aids, Early Detection and Intervention, Parent Training Program and one to one as well as group therapies. After the efforts of Swaranaad School, students and parents, students are able to speak and finally integrated into the normal school.

In the normal school, our students always proves that hearing impairment cannot stop them to grow. They perform well in curricular as well as extracurricular activities. Not only at primary school but they show their talent at secondary and higher secondary level too. Every year our students performs best in HSC and SSC examination. Many of students who are having hearing impairment completed graduation as well as post-graduation from various streams.

And now there is the time for teachers from Swarnad and the parents to be proud because recently the result of HSC and SSC were announced and students who were the part of our center performs great in the examination.

We know that your journey has never been easy, you have come here by facing difficult situation at many stages of your life. We the Cochlea Congratulate on your well-deserved success and wishing you all the success in your future career.

Special Attention: Om Babar got 100 out of 100 marks in Sanskrit and 98 marks out of 100 in Mathematics.

Academic Achievers in HSC 2020
